NEW YORK. May 14.—The stock market experienced a revival of speculative enthusiasm which seems to surpass in extent and variety of operations any of the numerous active sessions of the current extraordinary movement.

Rain, equipments, metals and oils were the outstanding features, but these were supplemented by many miscellaneous issues which seem to have attracted the attention of speculators because of their potential values.

Covering of short contracts and renewed buying by "sold out" bulkshippers entered extensively into the trading, which was mainly sustained, however, by further confident accumulation of long stocks for out-of-town interests.

Steel and equipments made their highest quotations, while news and market other leaders augmented gains of the early and mid-session, highest price averages ruling in feverish activity final hour, despite closing rate of 7½ per cent for call money.

United States Steel held all but the smallest fraction of its 2-3½ point advance but was outdone by greater gains in related issues, notably Gulf Blues and Lackawanna steels. Equipments rose 2 to 3½ points; shipping 2 to 7½ rails, oils and various peace industrial 2 to 5 points.

Further buying of fractions featured the bond market, Liberty issues also making slight gains. Old United States bonds were unchanged on call.
